

Interdisciplinary Science Conference-2009  
on  
Interface between Chemistry and Biology

(First Circular)

October 8, 2009, Ansari Auditorium

**Organized by**

Centre for Interdisciplinary Research in Basic Sciences,  
Jamia Millia Islamia, New Delhi- 110025.

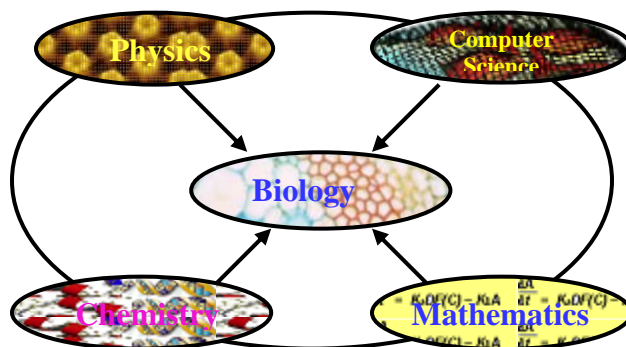

**Information about Centre for Interdisciplinary Research in Basic Sciences (CIRBSc)**

With the help of a special grant from UGC a new research centre has been established with an objective of providing a common platform for the researchers from the various fields of basic sciences and biological sciences, who are interested to implement their ideas to solve different biological problems. For example, there are plenty of problems which biology and chemistry have to offer each other. Same is true for physics, computer science and mathematics. Therefore, CIRBSc is trying to bridge up the gap between biologists and people from other disciplines. This conference, on the interface between chemistry and biology is a step to fulfill the aims and objectives of the centre.

Dear Colleagues,

*It is an honor and pleasure to invite you to the Interdisciplinary Science Conference 2009 on "Interface between Chemistry and Biology", to be held on October, 8 2009 at Jamia Millia Islamia, New Delhi.*

*This conference aims to create a forum for interaction between life scientists and chemists interested in biology. The conference will provide an environment for in-depth, informed discussions highlighting the importance of chemistry in some areas of life sciences. To confirm your participation, please complete the registration form and send us preferably by e-mail.*
