PRESENTS

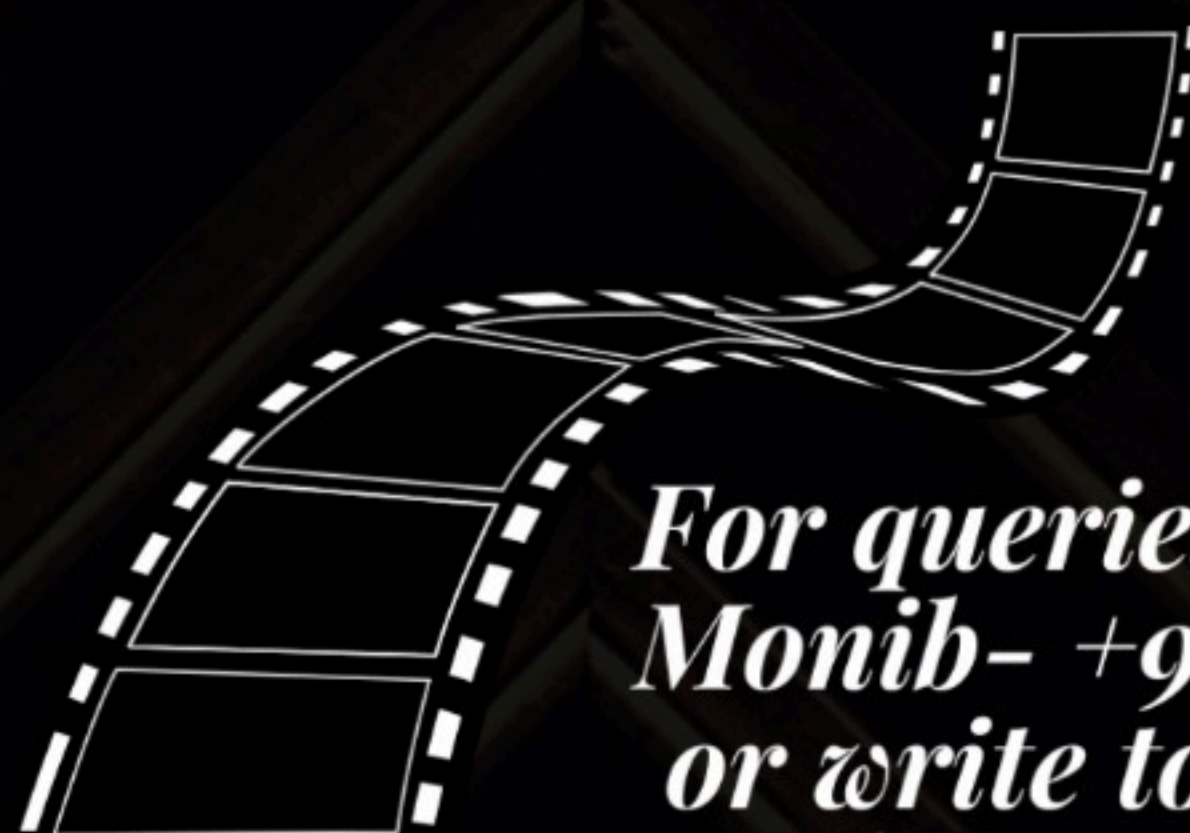

# Lights, Camera, Analysis

**Lights, Camera, Analysis is a platform for film enthusiasts (and the non enthusiasts) to come together and watch a film, followed by an unfiltered discussion of its themes, characters, and the cinematic techniques used to create it.**

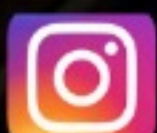

**Our objective is to provide an open and candid space for individuals to engage with some of the most meaningful films of our times. We want to allow students to explore and appreciate the art of filmmaking outside the classroom and see past IMDB ratings and popular reviews.**

**The screening is followed by a frank Q&A session. This is a gathering of friends after all, so we urge you to be fearless in your questions and comments.**

**STAY TUNED!**
