Advance Research Techniques in Management using SPSS and AMOS

BACKDROP: The institutions of higher learning in India are facing crucial challenge in creating, nurturing and maintaining the level of quality research especially in management. The need of the hour is to develop a sound methodological base of research among the budding academicians and researchers to cope up with future challenges. A good research methodology is a key to sound research output. To operationalize this vision, there is need to train the research scholars in the management on research methodology. The current workshop is an effort to enrich the research scholars in management on research methodology

ABOUT THE WORKSHOP: The present programme has been designed keeping in mind growing importance of research and publications in academic career of Research Scholars. The FDP course for Ph.D students in management is expected to cover the formulation of research problem, formulation of research hypothesis and testing of hypothesis, conducting literature review, data collection methods, selection of appropriate parametric or non-parametric statistical method for analyzing data, report writing, citation and bibliography..

TARGET AUDIENCE

A maximum of 30 Faculty/Research Scholars who are pursuing their PhD. can be registered for the workshop. Registration would be on first come first serve basis.
