

Report of the 74th Republic Day Celebrations Organized by Jamia Schools

All five schools of Jamia Millia Islamia (JSSS, SAHSSS, JGSSS, JMS, and MFNS) celebrated the 74th republic day (26th January 2023) functions collectively in its sprawling school campus.

The hon'ble Vice Chancellor, Padma Shri Prof. Najma Akhtar graced the occasion. She reached the venue at 9:10 am and was escorted by the principal, teachers and school NCC team. The Indian National Flag was hoisted by her at 9:15 am followed by the National Anthem by the School Children.

Teachers and students from all schools of Jamia Millia Islamia were present on the occasion. After flag hoisting, the Vice Chancellor met various teams of school students who were ready to give their performances in the Multipurpose Hall of Jamia Senior Secondary School during the colourful multicultural and multilingual series of events. She interacted with the students present and spoke most lovingly to the young students of Mushir Fatima Nursery school who were present there to participate in the cultural events. While speaking to the teachers, parents and children, she appreciated Jamia school's tendency to showcase the most beautiful programs in the least possible time.

The cultural events began in the Multipurpose Hall at 9.40 am. It was totally organized and conducted by students. The programme began with Qirat from the holy Quran by a student from JSSS. It was followed by an eloquent Welcome note by a student of Jamia Senior Secondary school. The atmosphere was vibrant with the emotions of nationalism, brotherhood and positivity. Then the much-awaited event 'International Year of Millets 2023 - A tribute to Farmers' was presented by little children of MFNS. It was like a spell bound performance by angels. Then came a solo song by a student from Jamia Middle school which was extremely well received by the audience. Jamia Middle school then presented a breathtaking Dance performance.

Vision of India was presented by two young students of Jamia Girls Senior Secondary school who spoke of a better future and what lies ahead for India, a nation that has so much to gain and nothing to lose.

A student of Syed Abid Husain Sr. Sec. School presented a Deshbhakti song commemorating all that has been done for the sake of this great nation by our forefathers and nations leaders and there is so much that we have to take care of.

Then came a glimpse of Jhanki by Jamia Middle school students who took the audience on a tour of Republic Day Jhanki - meanwhile talking about the cultural diversity of the nation to scientific advancements and how all that is awarded by the Head of a State. The Jhankis were breathtaking and the narrator's calm and soothing voice did wonders to the show. Looking at the Jhanki, reminded us of the real Jhanki on the Rajpath, now renamed as the Kartavya Path.

Prof. Jasim Ahmad (Principal, JSSS) then took to the stage and spoke about the value of sacrifice and its importance in the lives of common people and especially students. He laid emphasis on the beauty of our great Nation's heritage and that the students have to work hard to make our nation better than before. He focused on the importance of republic day and talked about the real meaning of republic. He also put light on the philosophical reasons behind selecting the date of 26 January 1950 to become republic despite the fact that the Indian Constitution was ready and passed by the constituent assembly on 26 November 1949. He appreciated the efforts and contribution of all Heads of Schools, all teachers and students for taking an active role in the republic day celebration and encouraged them to contribute more towards the betterment of education and for the better and bright future of students.

Vote of thanks was presented by one of the students from Syed Abid Husain Sr. Sec. School. The event concluded at 11:30 am with the National anthem. Guests, teachers and students later on went to see the exhibition displayed in the Jamia Middle school, which comprised of revolutionary working models relating to all the subjects, showcasing the truly brilliant thinking and hard work of both the teacher and pupil alike.
