

Prof. Mushahid Husain
Founder Director CNN-JMI

Prof. Mushahid Husain is the founding Director of Centre for Nanoscience and Nanotechnology, Jamia Millia Islamia (9 Dec, 2011 to 17 Dec, 2013). The Department of Physics under his coordinator-ship started a two year M.Tech. (Nanotechnology) course in 2007. This innovative Masters level course was designed to produce highly knowledgeable and specially trained postgraduates in the fast-developing area of nanotechnology which is already making major economic contributions, impacting on products ranging from satellite TV to household equipment.

Inspired by the above developments and motivation to pursue research and teaching in the area of Nanoscience, he initiated the process of creating a new state of the art Centre, namely the Centre for Nanoscience and Nanotechnology in Jamia Millia Islamia.
