2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

The idea of starting a scheme of coaching classes for Minorities was conveyed by the University Grants Commission in pursuance of the Government policy of bringing educationally backward minorities on par with the rest of the society and to make them participate fully in the activities of national development. Accordingly, in 1984, the University Grants Commission formulated a scheme regarding coaching classes for competitive examinations for students belonging to weaker sections among educationally backward minority communities. In order to meet the objectives as defined above and in pursuance of its mandate, the Centre for Coaching and Career Planning runs free coaching programmes for aspirants belonging to SC, ST, Women and Minority communities who wish to prepare themselves and compete for a variety of jobs, both academic and

administrative, as also to pursue courses of studies in the areas of their choice. The funding for the Centre is available from the University Grants Commission and Ministry of Minority Affairs, Government of India. The Centre draws upon qualified faculty with professional orientation to meet the requirements of the coaching programmes. Students are selected for coaching on the basis of an entrance test conducted for the purpose, and they are offered classroom teaching, which is supplemented and strengthened by periodic tests and evaluation. The library of the Centre has a holding of relevant material on a variety of subjects which is replenished regularly to facilitate students access to current and relevant material available in the required areas. The principal objectives of the scheme are To provide coaching facilities, testing and evaluation to enable the aspirants to succeed in various competitive examinations for recruitment to services under the central and state governments, public and private undertakings etc. To provide coaching facilities for admission to a variety of professional courses. To provide coaching in communication skill and personality development. To provide study material and library facilities

5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

Yes

Alumni are an institution's brand ambassadors, carrying their core values of excellence, lifelong learning of inclusiveness and diversity all around the world. The ethos and character of the institutions are expressed into their professional and social life style. Alumni can therefore, play a crucial role not only in spreading the name of the institution but also raise the quality of the institution that they hail from. They can provide sustainability to the parent institutions through both by imparting training in innovative skills to their Alma mater and by extra mural funding which are so necessary for the growth and development of any modern institution. Global Jamia Alumni Network (GJAN) has been conceived by the Hon'ble vice chancellor Prof Talat Ahmad as an effort to bring together the Jamia alumni present in different parts of the globe. This will reestablish and reinstate the placental cord between the alumni and the university to facilitate cultural as well as professional exchanges for mutual growth and development. The GJAN of Jamia Millia Islamia (JMI) shall promote the interest, welfare and educational aims of JMI and its alumni, establish and maintain a mutually beneficial relationship between JMI and its alumni, and encourage lifelong engagement of Jamia Millia Islamia alumni with their fellow alumni and the university community. The GJAN of JMI shall provide a forum for the exchange of information and ideas between JMI and its alumni and shall seek to develop programs involving alumni in various areas of services. Wherever appropriate, the GJAN will cooperate in conceptualising, instituting and furthering policies and programs of JMI and may recommend other

policies and programs designed to promote the welfare of JMI and its alumni. These purposes of the alumni association of JMI shall remain in effect as long as JMI remains organised exclusively for charitable, scientific, literary or educational purposes as per the existing act of the Indian Parliament which granted central university status to JMI

7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)

1. Provision of Installing rooftop solar plant for 2.253 MW Power 2.Provision for rainwater harvesting 3.Installed 832 solar LED street lights 4. Bio waste as per bio safety and ethical committee rules 5.Space has been earmarked for preparing compost

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Practice1: Biowaste management The Context As per the act passed by the Ministry of Environment and Forests in 1986 notified the Bio Medical Waste (Management and Handling) Rules in July 1998, it is the duty of every "occupier", i.e. a person who has the control over the institution or its premises, to take all steps to ensure that waste generated is handled without

any adverse effect to human health and environment. The competent authority therefore decided to implement for strict compliance of such policy across the departments and faculties where biowastes are generated. Objectives of the Practice • No occupier shall establish onsite treatment and disposal facility. • Operator of a common biomedical waste treatment and disposal facility to ensure the timely collection of biomedical waste from the user department/Centre. • to classify and segregate Biomedical waste at source. The Practice Biomedical Waste is any kind of waste containing infectious (or potentially infectious) materials. It may also include waste associated with the generation of biomedical waste that visually appears to be of medical or laboratory origin (e.g., packaging, unused bandages, infusion kits, etc.), as well research laboratory waste containing biomolecules or organisms that are mainly restricted from environmental release. In JMI, substantial research is being carried out in the areas of Life Sciences, Oncology, Oral diseases other than the routine patients in Faculty of Dentistry and Ansari Clinic. With Institutional Ethical and Biosafety committee in place, it is necessary to dispose generated biowaste through proper protocol and procedures. Since biomedical waste is distinct from normal trash or general waste, and differs from other types of hazardous waste,such as chemical, radioactive, universal or industrial waste, a dedicated segregation, handling and disposal is needed. Evidence of Success With research theme clearance of IEC and BS committee, faculty members are able to secure research grants from several funding agencies such as DBT, DST, ICMR, AYUSH, DHR as the committees make sure that the biowaste are properly handled. Several students have been benefitted by getting prestigious SRF/RA fellowships from these agencies. Challenges Encountered and Resources Required The competent authority has provided supportive role in signing MoU with agencies that handle biowaste and made it easier for faculty members to carry out research in related areas. The challenge of segregation has also been sorted out by providing differently coloured bins with poly bags which are then securely stored at a common place for collection by the assigned agency. Practice2: Harvesting energy from renewable energy sources (roof top solar panels) The Context Rooftop solar offers certain advantages over large solar plants as no land and additional transmission capacity is required. In addition, it saves transmission and distribution losses, which are to the tune of 30 percent.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Jamia Millia Islamia symbolizes the unflinching and resolute commitment of its founders in bringing about socioeconomic transformation of common masses, in general, and Muslims, in particular through the vehicle of education. The distinct identity of Jamia Millia Islamia has been eloquently explicated by Dr. Zakir Husain Sahib, which is quoted as, "the movement of Jamia Millia Islamia is a struggle for education and cultural renaissance. It will prepare a blueprint for Indian Muslims which may focus on Islam but simultaneously evolve a national culture for common Indian. It will lay the foundation of the thinking that true religious education will promote patriotism and national integration among Indian Muslims, who will be proud to take part in the future progress of India, which will play its part in the comity of nations for peace and development. The objective of establishment of Jamia Millia Islamia will be to lay down the common curriculum for Indian Muslims taking into account the future challenges and will prepare the children to be masters of future". The

mission of the founding fathers of this great institution should not only serve as a beacon light for all the stakeholders, but should also inspire us in making this university as one of the premier institutions of higher learning in the world. It should attain distinction in providing cutting edge learning experience, internationally benchmarked education, intellectual freedom and critical research opportunities in frontier areas of contemporary concern. While the University has come a long way since its inception, it has to keep pace with the changing needs and expectations of the society. It has to successfully perform the multiple roles of creating new knowledge, acquiring new capabilities and producing an intelligent human resource pool for the promotion of economic growth, cultural development, social cohesion, equity and justice.

8.Future Plans of Actions for Next Academic Year

The University has achieved new heights in its academic performance and quality of research during previous years, reflected by various indicators. The hindex of the University, the sponsored research funding, number of publication in peer reviewed journals and the honours and distinction received by the faculty members are all on upswing. University has secured DSTPURSE program and looking further strengthening the university research infrastructure by applying for SAIF (Sophisticated Analytical Instrumentation Facility). The road map for the next year includes focus on expansion of research facilities, strengthening of teaching laboratories, expansion of student amenities, some of the highlights are enumerated below: 1. Central Instruments Facility The secure grant of Rs. 15.0 Crores is earmarked to strengthen the existing Central Instrumentation facility to house additional major research equipment. The facility needs to be further scaled to stateoftheart equipment for research in basic and applied sciences. 2. 100 WiFi campus and access to each student. This will enable the whole campus as WiFi enabled and establish with a robust cyber security system. 3. Setting up Animal House Facility To carry out advanced research in life sciences, it is planned to functionalize animal house.
