## **Jamia Millia Islamia** *An Overview*

In 1920, the Jamia Millia Islamia (JMI) was established in Aligarh by a group of nationalist Muslims. Though it shifted to Delhi five years later, the foundation stone of the present campus was laid on March 1, 1930. Since its inception, the institution has grown and expanded rapidly. In 1962, the University Grants Commission granted Jamia the status of a “deemed university” in recognition of the institution's academic endeavour. In 1988, an Act of Parliament declared Jamia a Central University. Today, the university has come to symbolise the best academic and cultural traditions that can be inculcated by a progressive and liberal educational institution. It represents a spirit of learning that blends tradition with modernity, humanism with liberalism, and nation building with professionalism.

### **Inception as a Nationalist Alternative in Education**

In 1892, Syed Ahmed Khan established the Mohammedan Anglo-Oriental College. With time, this college produced a combination of elite and middle class leadership that was actively involved in the country's nationalist movement. While the landed gentry of Mohammedan Anglo-Oriental College helped to establish the Muslim League in 1906, the educated and secular Muslim intelligentsia from the college was associated with the Khilafat and non-cooperation movements led by Mahatma Gandhi. For the latter, it was Hindu-Muslim unity that got precedence and, Jamia's founding fathers like Mohammed Ali (later to become Jamia's Vice Chancellor) and Hakim Ajmal Khan underlined the need for building an educational institution that would impart modern education as well as nationalist ideals. Its students would be drawn from all communities, but more specially Muslims. This institution's founding fathers actively opposed the “two nation theory” propagated by the Muslim League. Muslim intelligentsia was split down the middle as a consequence of these divergent views and Jamia Millia Islamia was born out of this ideological conflict. The setting up of Jamia had the support of men like the Mahatma and Rabindranath Tagore, who had initiated a similar effort at Shanti Niketan. Jamia's beginnings underscore the cultural and religious diversity which help to evolve and sustain the pluralism that marks the spirit of India.

This institution's founding fathers conceived Jamia as the National Muslim University. When first established on the campus of the Mohammedan Anglo-Oriental College, the Jamia had to struggle to survive, given its severe lack of funds and infrastructure. But survive it did, on the spartan lifestyle of all those who came within its portals. Its students and teachers were the true embodiment of the adage of “simple living, high thinking.”

When the Khilafat Movement was withdrawn in 1924, the Jamia faced a serious threat of closure. It was during this phase that it moved to Delhi and its reins were handed over Dr. Zakir Hussain, who aptly remarked, “The biggest objective of Jamia is to prepare a roadmap for the future of Indian Muslims with the religion of Islam at its core and to fill that roadmap with the colour of the civilisation of India in such a way that it merges with the colours of the life of the common man.” In its transitional phase, it was the active support and involvement of leaders like Hakim Ajmal Khan, Dr. Mukhtar Ahmad Ansari, Janab Abid Hussain, Abdul Majeed Khawaja and Professor Mohammed Mujeeb that sustained Jamia. This phase in this institution's history that is characterised by the sacrifices of staff and students, and the assistance of Mahatma Gandhi in raising funds for its survival and growth.

### **Evolution as a modern, secular institution**

Ever since its inception, Jamia has catered to students belonging to disadvantaged and underprivileged backgrounds. The medium of instruction and learning has been Urdu, English and Hindi. By 1937, when Jamia had shifted to Okhla, it was an institution that actively dispersed Mahatma Gandhi's idea of *nai talim* which was popularly known as the Wardha Scheme. It was under this Scheme that Dr. Zakir Husain initiated the Book Bank Project, the Dehat Project revolving round villages, and the Subzi Mandi Project. Other programmes that were started at that point of time

focused on *sehat aur safai* (health and hygiene), *kapda* (weaving), carpentry and soap making. These programmes aspired to inculcate in students the merits of manual labour and the expansion of their intellectual horizons. In addition to this, education at Jamia stressed the importance of vocational training along with innovative teaching, which became a hallmark and model of the institution's identity. When independence came in 1947, Jamia had carved out a place for itself as an institution that had contributed to both the political and the educational spectrum of the country. While India faced the trials and tribulations of becoming an independent country, Jamia had its own hurdles to overcome. Chief amongst them were financial difficulties, which induced values of thrift and sacrifice among teachers and students. In many ways, they reflected the values of self-reliance and democratic functioning that were the core principles of Nehruvian India. Prime Minister Nehru acknowledged this by inducting Dr. Zakir Husain and Professor M. Mujeeb into the Planning Commission. All this while, those at the helm of Jamia endeavoured hard to obtain university status for the institution.

In 1962, Jamia was bestowed the status of a deemed university under the University Act 1958. Professor Mujeeb was at the helm of Jamia affairs and it was time when employees were able to draw regular salaries. 1963 saw regular teaching programmes like Masters in history and education, and undergraduate programmes in the sciences. By 1969, doctoral programmes had been introduced. Jamia's emergence and recognition as a premier institution of learning came in 1988 when it was accorded the status of a Central University. For its academic structure, Jamia chose the faculty system which had a cluster of different departments in each faculty under a Dean.

#### **Contemporary Jamia**

Jamia has evolved and expanded remarkably over the years. Centres aimed at research have been added to the earlier faculty-departments structure, creating a multi-layered educational system which begins with primary school and continues till doctoral research. Today there are nine faculties, with more than three dozen departments within them, and twenty-five centres. Faculties and Centres together run undergraduate, postgraduate, M. Phil. and Ph.D. programmes, along with diploma and certificate courses. Their focus is on research and professional training. In February, 2011 the National Commission for Minority Educational Institution declared Jamia as a minority Institution while by implication Jamia can now reserve 50% seats for students of the Muslim community, the University remains committed to modern education and its implicit stated values of nationalism & Secularism. Almost twenty thousand students are enrolled in the University. The Jamia's academic community coalesces with its administrative arm to strengthen a system of education that is modern, professional and integrative. Jamia's strength lies in its ability to cull from the past in order to address the present and forge the future. It aspires to produce alumni who are not only academically proficient but who are also responsible citizens shaping the India of the twenty-first century.

# **Faculty of Law**

The Faculty of Law, Jamia Millia Islamia was established in 1989 making its modest appearance in the field of legal education by introducing a three year LL.B. programme. Over the past two decades, the Faculty has made significant progress in terms of restructuring of courses and syllabi, introducing new courses, experimenting with innovative techniques of imparting legal education and strengthening its clinical programme in order to give due emphasis to the expanding horizons of the legal profession.

**Centre  
For  
Culture, Media  
And  
Governance**

## Centre Overview

The Centre visualizes a critical understanding of 'culture', 'media' and 'governance', and the interplay between them. The need for an interdisciplinary commitment arises because communication plays a pivotal role in the organisation of institutional forms, symbolic systems and patterns of everyday life throughout the Indian sub-continent. These twin contexts emphasise thrust on Communication---as an interdisciplinary science and as a specialised field of inquiry.

Our orientation leads to combining study of the material shaping of the media with that of the institutional organisation structuring them. It is vital to understand, interpret and criticize meanings and messages, to grasp how a break in theories of transmission and transportation trigger changes in human behaviour, and how cultural traditions assimilate, modify or provoke technological innovation. The Centre work revolves around scrutinising the plethora of cultures caused by the media and ways in which the media are governed in polity.

The Centre's objective is to enhance the integration and development of interdisciplinary research into the media in India and South Asia. To this end, various programmes CCMG are oriented to examine and seek new quantitative and qualitative, analyse and measure media production, content and reception, compare disciplines, mediascapes and regions, as well as engage in networking with media scholars and policy analysts from varied, contiguous disciplines.

Jawaharlal Nehru  
Studies**

## Centre Overview

The Centre for Jawaharlal Nehru Studies was established in July 2004 to develop rigorous research and teaching programme to disseminate and develop understanding of the Nehruvian legacy. At present, the Centre for Jawaharlal Nehru Studies conducts M.Phil and Ph.D. Programme on Development Studies. The emphasis of the Centre is on the study of Nehruvian ideas, their application and impact, and the process by which these have been marginalised in the current scenario. Keeping this in mind, the Centre attempts to become a nodal point for research on the processes that consider the economic, social and cultural aspects of the Nehruvian Legacy in contemporary India.

**Training & Placement****Mode of Contacting Companies**

The companies are contacted through various modes including

- past recruitment analysis
- outreach programmes conducted by students
- information received from placement office of the university
- internet surfing
- structured databases

**Terminology for Mode of Recruitment**

*Campus* recruitment includes visits and conduct of interviews by the companies in the premises of CMS as well referrals from the campus and conduct of interviews in company premises all indicating the efforts of the placement cell at CMS

Off Campus would imply sole efforts of the students for getting placement with no involvement of the CMS in any manner.

*Placement Office* would be activities of placement conducted by the Placement Office of the university

**Performance Analysis**

The placement activities at CMS exhibited turbulence during the last 6 batches. The first two batches started with 30 and 35 students respectively which were well adopted by the corporate sector. In the third batch, the students strength increased to 60+ with diluted the placement possibilities. However, by end of the academic session for the batch 53 were placed out of 59. During this batch period the placement office was established by the university which started functioning in full stream from the fourth batch. However due to recession etc. lesser students were placed (43 out of 60) till the end of session for the said batch. The fifth batch (2007-2009) witnessed a slump in the recruitments. However as per statistics available 44 have been placed out of 50 eligible students. The current batch is progressing slowly. As of now no student could be placed through the *Placement office* of the university. Only 7 students have got placements through *Campus efforts*.

- A New Facility for Online Tracking of Admissions related Information :**  
 The FTK-Centre For Information Technology has developed a new facility for the Online information regarding Admissions. This new Module has been developed within the Administration Module of the Jamia-MIS. The facility tracks information regarding Status of Application Forms submitted by candidates and Test Centres allotted to them, and names of candidates called for interview/ selected for admission/ wait-listed candidates. This online tracking facility has been rendered through the URLs: <http://jmi.ac.in/admission/oats.htm>, <http://jmi.ac.in/admission/fet1/index.html>. In addition to this, the Jamia website has been upgraded to take care of heavy Internet traffic.
- JMI-MIS incorporates the Semester System :**  
 With the introduction of Semester System in postgraduate programmes in Jamia from the academic session 2010-2011, the FTK-Centre for Information Technology has carried out the task of transforming various data in respect of 32 postgraduate programmes from the annual system to the semester system. The data were transformed for the following features:
  - Entrance Application Form ( for updating students' primary information),
  - Course Information ( to create a new course based on Semester System),
  - Subject Information ( to create newly introduced Subjects/Papers),
  - Subject Paper Allocation ( to create admission slip to opt compulsory /optional subjects, according to new syllabus),

- Admission/Re-registration Form ( to maintain the history of a student),
  - Admission Slip ( to generate course wise Admission Slip),
  - Attendance Register ( to make corrections in the Course name and Session),
  - Student Identity Card (for generating new Curriculum based Identity Card),

**Nelson Mandela Centre  
For  
Peace & Conflict  
Resolution**

### Centre Overview

The Nelson Mandela Centre for Peace and Conflict Resolution was launched in 2004 and was one of the first of its kind in an Indian university. Its chief focus is comparative and contemporary studies, and it aims to address the lack of serious and purposeful analysis of types and sources of conflict in our country and neighborhood, and the methods of dealing with them that India has adopted. There is a wealth of literature on war-making and peace settlements through the ages, but it has not yet been collated or analyzed from a doctrinal point of view.

The Centre hopes to evolve an active programme of research, curriculum development, teaching, seminars/conferences and training courses for faculty, administration and civil society, as well as partnerships with other university centres/departments and institutions working in the field of peace and conflict studies.

#### Objectives

- To research and document Indian approaches to the promotion of peace, at home and abroad.
- To develop a curriculum of peace and conflict studies based on national, regional and global experiences.
- To build capacity for conflict prevention and resolution in government and civil society agencies.
- To promote a community of academic expertise in conflict prevention, management, and post-conflict peace-building.

## **Hall Of Girls Residence**

## Overview

There are few substitutes for a hostel which offers safety and security to outstation girl students. It is this spirit which drives JMI to offer an environment as close to home as possible.

The Hall of Girls complex is named after Halide Edib (1884-1964), who was among the most acclaimed figures in modern day Turkey.

It has four hostels in it, in which about 500 candidates can be accommodated as per the following:

Name of Hostel	No. of Rooms	Total Capacity
Gerda Philipsborn (GP)	61	170
Aruna Asaf Ali Hostel (AAA)	23	69
Begum Anis Kidwai Hostel (BAK)	66	198
Mridula Sarabai Working Women	50	100

Admission in students hostels is granted to the most meritorious ones across various Faculties, Departments and Centres. In real sense, Jamia hostel nurtures unity in diversity, as foreign students from different countries and students from North East States, J&K & from all sections of society share residential facility. Jamia Millia Islamia is basically a non-residential university but hostels accommodate more than 500 students.

Residents celebrate all important festivals together and cultural activities are organized from time to time to promote the spirit of cultural harmony underlines the spirit of composite culture values for which JMI stands.

To strengthen and streamline hostel administration, the following steps have been taken:

- **Admission Policy**  
Due to Common Wealth Games 2010, New Admission process began in November and Hostel facility was made available from December 2010. To ensure fairness and transparency in hostel admission, a committee of external experts comprising senior faculty members was constituted by the Vice- Chancellor.
- **Re-admission**  
The process of readmission has been made more rigorous to ensure that the residents follow hostel rules. Readmission was granted on the basis of the conduct report of individual residents submitted by the concerned wardens and to ensure discipline and adherence to rules and regulations, a proper screening was done. Only those residents were considered for re-admission whose conduct report and attendance record was satisfactory.
- **Attendance Record of staff**  
In order to ensure that the staff members of Hall Of Girls Residence report in time, attendance Registers are maintained in which timings of arrival and departure of staff have been recorded and they are duly signed by the Warden Administration to assure that all the concerned staff members follow the time schedule of their duties. Daily duty chart of Bearers and Safai Karamcharis has also been prepared to ensure efficient delivery of service to the residents

- **Gymnasium**  
A variety of Exercising Machines like Bicycles treadmills etc. available with Gymnasium to take care of the Health and fitness of the Residence request for further up gradation of Gymnasium has also been sent to the concerned department.
- **Committees of Residents**  
Different committees have been formed to encourage residents to participate in day to day functioning of the Hostels facilitate them and also ensure their involvement in the functioning of the hostel. This year the following committees were formed with above objective in mind:
  - **Cultural Committee:** To help in the organization of the cultural activities.
  - **Discipline Committee:** To maintain discipline in the hostel.
  - **Mess Committee:** To look into the working of the Mess in each hostel.
- **Cultural Activities**  
A wide variety of cultural activities are organized from time to time in Hall of Girls' Residence to encourage a sense of participation and to explore the talent of the residents, coming from diverse cultural background. Such activities certainly play a key role in promoting cultural harmony. Following events organized this year received enthusiastic response from the residents:
- **Fresher's party:** To welcome the new residents of the hostel, fresher's party was organized in January 2011.
- **Sports day:** We organized sports day to promote the spirit of sportsmanship in our residents.
- **Annual dinner cum Farewell party:** We also organized annual dinner to bid farewell to out going residents. Our residents enthusiastically participated in various co-circular activities organized throughout the year and were awarded with trophies and certificates.
- **General Rules and Regulations**
  - Following mechanism has been evolved to maintain general discipline among the residents and ensure that hostel rules are not violated.
- **Revised Late Night and Leave Performa.**  
Revised late night and leave Performa (in duplicate) was made available to the residents so that individual records are prepared and it's handy to trace the resident if she does not return back to hostel before the stipulated time.

➤ **Gate Pass**

For the first time, a system of issuing gate pass in duplicate was introduced to ensure that residents who wish to leave hostel (in special circumstances) between 7.45 p.m. to 6 a.m. take prior permission from the concerned warden. These gate passes have to be submitted to the guard at the main gate of Hall of Girls' Residents and should be countersigned by the gate guard. These passes are collected from the guard at night duty in the morning at 6:00 a.m. on daily basis and we keep a record of these passes.

Show Cause Notices and Warning are issued to residents found guilty of violation of Hostel rules and their conduct report is examined at the time of readmission. All this is done to ensure that while the residents comfortable stay in home like surroundings, they should also perform their duties conscientiously and do not indulge in any activity which is not becoming of them as a student of an institution like Jamia Millia Islamia. Thus it has been the constant endeavor of hostel administration to encourage residents grow intellectually as well as morally.

• **Requirement for further up gradation**

A proposal for further up gradation of facilities has been sent recently and it is expected that due attention would be given to the requirements of Hall Of Girls Residence. Our residents have always actively participated in various curricular and co- curricular activities in the University and outside the University and detailed record of their achievement in 2010-2011 is available in the office. It is hoped that with better infra structural facilities, we would be able to empower our young female students and they would be encouraged to perform better in future.

It would be important to put on record that the range of initiatives taken through the year in the hostels have been made possible because of collective effort of the team, which has regardless of the time, given their maximum input. There is a constant process of reflection regarding the future strategies that need to be adopted to make the hostel in a true sense a 'home away from home'.

**STATUS OF COMPUTERISATION OF FINANCE & ACCOUNTS**

The functioning of Finance & Accounts Office has been automated to a large extent with the Finance and Accounts Office Information System—FAOIS. It comprises 2 modules i.e. GFA and Payroll. These modules cater to the accounting and payroll management needs of the Office. The system has been integrated with the University MIS to achieve organizational efficiencies in operations and management. The system uses Oracle at the backend and Developer 2000 at the front-end and is accessible through the University network, with its 3300 nodes and provisions for data security. Under the self-service initiative, accessibility to personal data such as information about salary, Provident Fund, Tax etc has been extended to individual employees.

Although we have made considerable efforts on development and implementation of the FAOIS system with great degree of success, the system still has a lot of scope for further improvement. It will soon be used as a major building block for achieving e-Governance in the University.
