

Programmes/courses

1. B.Voc Medical Laboratory Sciences (MLS)
2. B.Voc Medical Electrophysiology (MEP)

These courses are offered in self finance mode.

Duration	3 years
Eligibility	Students who have passed 10+2 level examination (or equivalent) with a minimum of 50% aggregate marks in Physics, Chemistry and Biology.
No. of seats	50 seats in each course (Including all reservation as per JMI rules).

B.Voc. Medical Electrophysiology (MEP) program offers students a comprehensive education in the study of electrical activities within the human body, particularly focusing on their application in medical diagnosis and treatment. Through this program, students delve into the principles of electrophysiology, gaining a deep understanding of how electrical signals impact cardiac and neurological functions. They learn to conduct and interpret a variety of diagnostic tests and procedures crucial for identifying cardiac arrhythmias, neurological disorders, and other related conditions. From mastering techniques like electrocardiography (ECG), echocardiography, Treadmill Test (TMT) and Holter's monitor for cardiac monitoring. Lab is equipped with necessary
