Press Release

JMI's CIE announces Summer Special Batches for Skill-Based Short-Term Courses under Skill India Initiative

The Centre for Innovation and Entrepreneurship (CIE), Jamia Millia Islamia (JMI), is pleased to announce a unique opportunity for school students and housewives to enhance their skills through Summer Special Batches of Skill-Based Short-Term Courses. This initiative aims to equip them with practical skills, fostering self-reliance and preparing them for future career opportunities. The courses will cover a diverse range of industry-relevant skills, ensuring that participants gain hands-on experience and professional development during their summer break. There are various courses on future ready skills and digital skills.

Special Focus on School Students, Housewives and Other professionals:

For School Students: These courses are designed to help students make the most of their summer vacations by learning new skills that will not only enhance their knowledge but also give them a competitive edge in their future academic and professional pursuits.

For Housewives: The program offers an excellent opportunity for housewives to acquire new skills, explore entrepreneurial opportunities, and contribute to their personal and family growth.

These courses will help in enhancing skills through certified programs. Hands-on training will be provided by industry experts. Regular students of JMI and other universities/colleges may also grab this opportunity.

Interested candidates can register for admission into these courses. Limited seats are available, so early registration is recommended.
